

As a high school junior, you and your family are likely looking forward to your senior year and graduation. ACT and the Ohio Department of Education want to make sure you are ready for the next steps after high school. One way to help you on your journey is to give you the valuable opportunity to take the ACT® test.

- It measures what you have learned in high school.
- There is no cost to you or your family for this administration.
- Testing will occur during the school day.
- You can use the results for admission to many colleges and universities.
- The results will help determine your academic readiness for college and provide career guidance based on information you provide to ACT.

What information does ACT want to know?

Before test day, you will be asked to provide basic identifying information and information about you and your college and career interests.

Note: We will never request your Social Security number.
