## VISION STATEMENT

**The Tomorrow Center meets the academic, emotional and social needs of individual students while preparing them for a successful transition to a better tomorrow.**

## MISSION STATEMENT

**The Tomorrow Center respects and reveres individuality while reaching towards each child's unique potential. Our purpose is to build a strong academic and social foundation for all students enabling them to communicate and contribute effectively and responsibly within their community.**

## GRADUATION

The Tomorrow Center graduated 24 students in the class of 2022.

## PARENT AND COMMUNITY INVOLVEMENT

PLEASE CHECK OUR [FACEBOOK](#) PAGE FOR PICTURES OF ALL OUR ACTIVITIES

**PARENT CLUB:** Come join us monthly for our **parent clubs** starting in September and every month after until April! We always provide a free dinner, a craft, and an educational component. Students are welcome to attend with their parents and enjoy the good food, fun activities, and socialize with all.

**COMMUNITY FAIR:** The Tomorrow Center also offers our annual Community fair that brings outside agencies to the Tomorrow Center for parents and community to build connections with agencies from within our Community.

**COMMUNITY ADVISORY:** The Tomorrow Center has a Community Advisor Committee that meets quarterly to provide support for the Tomorrow Center.

## MENTAL HEALTH:

The Tomorrow Center's focus is working on student's mental health while working towards graduation. We are very blessed to have a NYAP counselor in our building all day every day to help with the student's mental health needs. We also hired, Dr. Kathy Clark, a social worker who is working with students two days a week. New to the students this year is the *ZEN DEN*. The *ZEN DEN* is a calm, sensory room where the students can go when they are feeling some type of way and need to collect themselves. The *ZEN DEN* is created with a bubble wall, sensory items, and rocking chairs. The *ZEN DEN* will also be used as a de-escalation room for students in a time of crisis.

We also introduced this year JAKOPA. JAKOPA will be used for students to track their moods and PBIS.

To also combat the trauma that many of our students have faced in their lives, we have developed the **STUDENT ACTIVITIES:**

- Basketball
- Volleyball
- Cheerleading
- D & D Club
