

The Tomorrow Center- We Care Conference

Hi Parents,

On Wednesday May 1, 2019 the Tomorrow Center is having its annual WE CARE Conference during the school day.

Your student will select three sessions out of eight choices in the morning, and then three sessions out of eight choices after lunch.

We carefully considered the needs and interests of our students when designing our breakout sessions. The middle and high school students will be able to choose from the same 16 session choices. Could you look over the list of sessions and if you are opposed to your student attending any session, please call me at the school 419-718-4242 or on my cell phone 740-361-2796 no later than April 26th so I can make sure to fulfil your request. Be sure to leave you and your students names if leaving a message.

Thanks,

Susie Sexton
Family & Civic Engagement Coordinator
